## Installation (TC-4XX)

### NOTICE

**IF A SCREEN PROTECTOR IS BEING USED ON TABLET (NOT INCLUDED),  
ASSEMBLE BEFORE BEGINNING TABLET CASE INSTALLATION.**

- 1) Assemble hand strap by guiding each end through the slots on the Back Assembly of Tablet Case. Adjust loop size as desired and secure on the hook featured of the rear housing.

**Smallest hand strap setting**

**Largest hand strap setting**

- 2) With the front cover removed. Insert the USB connector from the Back Assembly of the Tablet Case into the circled USB port of the tablet (TC-401 shown as example).

## Installation (TC-401 shown as example)

3) Lower the Tablet into the rear housing. Ensuring that the connector cable is routed properly, being careful not to pinch cable.

4) Place the Front Assembly of the Tablet Case on the Back Assembly. Ensure a proper fit by looking for gaps along the seam between the two pieces. This case contains six snap fits denoted with the arrows below. Apply light pressure around the entire perimeter to ensure that all six snaps engage.

Cross section view of Front case snapping into the Back case.

## Installation (TC-401 shown as example)

- 5) Holding the two Assemblies together, carefully turn the Tablet Case over. Insert all the necessary screws (Hardware Kit Item 1) and tighten with provided T8 Torx Bit (Hardware Kit Item 5).

**Torque screws to 4 in-lbs (0.45Nm)  $\pm$  10%.**

**CAUTION: DO NOT OVERTIGHTEN SCREWS OR DAMAGE TO TABLET CASE MAY OCCUR.**

- 6) To remove your tablet from the Tablet Case remove all the screws then carefully turn the case over. If your Tablet Case includes interlocking snaps use your fingers to pry the Front Assembly up from the inside edge along the screen. Lift the Front Assembly off the Back Assembly, unplug the connector, and remove tablet.

## Tablet Case Features (TC-4XX)

The Kickstand on this tablet case can hold the tablet through a wide range in the landscape orientation.

## European Union

### Waste Electrical and Electronic Equipment (WEEE)

Electrical and electronic equipment (EEE) contain materials, components and substances that can be hazardous and harmful to human health and the environment when WEEE is not disposed of properly.

Products marked with the "crossed-out wheeled bin" symbol are EEE. The crossed-out wheeled bin symbolizes that WEEE must not be disposed of together with unsorted household waste, but must be collected separately.

For this purpose, all municipalities have established collection schemes where WEEE can be handed in, free of charge, by citizens at recycling stations or other collection points or collected directly from households. Further information should be obtained from the municipality's technical administration.

This symbol on the product or on its packaging indicates that the product must not be disposed of with normal household waste. Instead, it is your responsibility to dispose of your waste equipment by arranging to return it to a designated collection point for the recycling of WEEE. By separating and recycling your waste equipment at the time of disposal, you will help to conserve natural resources and ensure that the equipment is recycled in a manner that protects human health and the environment. This product is EEE and shall not be placed in the municipal waste after end of its life. This device should be handled properly and handed over to appropriate collection places or to authorized companies.

### Conformité Européene (CE) Mark

The CE marking on a Havis product indicates conformity to the provisions of applicable European Union (EU) directives. The EU Declaration of Conformity (DoC) is the manufacturer's declaration that the product complies with those directives.
