

COMMERCIAL POWER VS CORE POWER INVERTERS

TS SERIES | CS SERIES

COMMERCIAL POWER
TS SERIES

CORE POWER
CS SERIES

CHOOSE THE RIGHT SERIES

Havis Power Inverters deliver reliable Pure Sine Wave power for mobile fleets with solutions designed to match a wide range of operational needs and budgets.

Commercial Power (TS Series) adds high-frequency efficiency and extended surge capability to start and run demanding onboard equipment, helping service fleets, delivery vehicles, and vocational upfits maintain consistent performance

Core Power (CS Series) provides clean, dependable, cost-effective power in right-sized 600W, 1,000W, and 2,000W configurations for everyday onboard loads and straightforward fleet installations.

HAVIS POWER INVERTER SERIES OVERVIEW

COMMERCIAL POWER INVERTERS:

- Single-wire remote
- Widest DC operating range
- Longer surge rating
- 90% - 93% efficiency rating for reduced battery drain
- Pure Sine Wave output for operating and protecting sensitive electronics

CORE POWER INVERTERS:

- Value driven mobile power applications
- Cost-effective choice for standard deployments
- USB-A Power Port 5V x 2.1A
- >89% efficiency for longer run time & lower discharge
- Generates Pure Sine Wave AC power to operate & protect

SERIES COMPARISON

SPECIFICATION	TS SERIES INVERTERS	CORE SERIES INVERTERS
POWER RANGE	400W – 3000W	600W – 2000W
TEMPERATURE	-13°F to +104°F	32°F to 104°F
INPUT RANGE	10.5–16.5VDC	10.5–15.5VDC
SURGE CAPABILITY	150% for 3 sec	200% Instantaneous Peak
WARRANTY	Up to 48 Months	2 Years
POSITIONING	Commercial Grade	Value Driven
