HAVIS

SKIM DETECTION SOLUTIONS

SKIM DETECTION TOOLS

ADVANCED SKIMMING DETECTION, SIMPLIFIED.

Havis Skim Detection tools empower users to quickly and easily identify compromised payment terminal stands. This simple, non-technical check helps to reduce fraud risk, safeguard revenue, and protect customer trust.

- **Rapid Risk Assessment:** Easily identify criminal skimming activity & unauthorized terminal modifications.
- **Proactive Fraud Detection:** Serves as an additional safeguard to support routine inspections & security protocols.
- **Clear Status Indicators:** Intuitive red/green visual for quick, non-technical assessment.

Skim Detection Tools

- **Custom-Fit Design:** Engineered to fit specific payment terminal models.
- **Non-Intrusive:** No interference with normal terminal operation or transaction processing.
- **Portable & Easy To Use:** Enables fast checks during audits, store visits, or incident response.

COMPATIBILITY

PART NUMBER	COMPATIBLE PAYMENT TERMINALS
LPD-1001	INGENICO LANE/8000, LANE/7000
LPD-1002	INGENICO RX5000, LANE/3000, LANE/3600, DESK/5000, DESK/3500, MOVE/3500, MOVE/5000
LPD-1003	VERIFONE M400, M424, M425, M440, M450
LPD-1004	INGENICO RX7000

HOW IT WORKS:

1. **Insert into EMV slot**
   Slide tool firmly into the terminal's card slot.
2. **Read the status indicator**
   Tool instantly signals whether terminal is clear or compromised.

Green = No skimmer detected
Terminal is clear. Safe to proceed with normal operation.

Red = Skimmer detected
Take terminal out of service immediately & begin investigation.
