2025 SOLUTIONS

HAVIS, INC

END-TO-END SOLUTIONS PROVIDER

From the four wheels to the four walls, Havis designs solutions for technology to mount, pair, charge and protect. When you work with Havis, we put our knowledge and passion into action to create innovative and unique accessories that enhance the experiences of our partners and their end users.

A dense collage of various retail and service brand logos, including food chains like McDonald's and Starbucks, department stores like H&M and Primark, and other brands like Nike, LEGO, and the NHS.

END-TO-END SOLUTIONS FOR BIG BOX RETAIL

HAVIS

END-TO-END SOLUTIONS FOR QSR

HAVIS

MOBILE PROTECT & CHARGE

- Unique, protective case with optional sleek charging solution
- Easy charging of device while in protective case via simple slide rail
- Durable case provides protection while improving the overall usability of the device
- Access to all payment methods

MOBILE PROTECT & CHARGE

MOBILE PROTECT & GO

- Game-changing protective cases for the newest and most popular mobile devices
- Easy access to all device features, including touchscreen, camera, printer etc
- Belt clip and lanyard option on some cases for convenient two-handed operation
- Enhance customer experience and maximize productivity

MOBILE PROTECT & GO

MOBILE PROTECT & PAIR

- Rugged, zero-depth design physically pairs scanning/mobile computing and payment for associate use and charging
- Access to key functions and features on both devices
- Fully-integrated communication between devices via Bluetooth/Wi-Fi
- Simultaneous charging of devices via optional charging adapter
- More than 100,000 in use in retail stores

MOBILE PROTECT & PAIR

MOBILE PROTECT & CONNECT

- Combines your choice of mobile payment with your choice of phone/mobile computing device
- A sleek yet exceptionally durable, single low-profile protective case
- Quick turnaround time means production quantities delivered in weeks, not months
- Low MOQs expand customer opportunities

UNIVERSAL MOBILE CHARGING PLATFORM CONCEPT

- Rapid path to market for next-generation mobile payment devices
- Can be used for single devices or can be joined together to charge multiple devices
- Configurable system can be tailored to specific requirements (single-bay and 4-bay)
- Modular foundation allows for quick-turn solutions

SC-2000

PREMIUM DEVICE-AGNOSTIC SELF-SERVICE KIOSK

- Premium, configurable kiosks for self-checkout & self-service applications in Retail & Hospitality
- Countertop, tabletop & pedestal solutions
- Space-saving design with a focus on usability
- Single or dual display mounts to enable portrait or landscape orientations
- Optional accessories include: integrated printer enclosures, riser, payment arm, ADA/EAA device arm
- Easy installation & servicing in the field
- Cable management conceals wiring for a clean, aesthetic look

SC-2000

SC-1000

UNIVERSAL SELF-SERVICE KIOSK SOLUTION

- Allows retailers to bring their own technology
- Ideal for POS, Self-Checkout, Self Check-In, endless aisle, price verification, time-clock applications, fitting rooms and more
- Simple-to-service, versatile and device-agnostic design
- Available in Countertop or Floor/Pedestal variations
- Adjustable height and display flip features
- Full suite of accessories available (payment, scanner, ADA/EAA device, loss prevention, shelves)
- Locally manufactured for shorter lead times and easy customization

CONVERTIBLE POS SELF-CHECKOUT LANES

MARKET TREND: TRANSFORM EXISTING POS LANES TO SELF-CHECKOUT LANES TO MAXIMIZE STORE FOOTPRINT & EXISTING CASHWRAPS

- Off-the-shelf and custom solutions available
- Create a solution tailored to your existing store fixtures and technology
- Use Havis's MM-1000 or TechTower solutions to create a custom configuration to fit your needs
- Range of options for VESA-compliant monitors
- Solve the challenge of being employee-dependent for all POS transactions

MM-1000

UNLIMITED CONFIGURATION & CUSTOMIZATION OPTIONS

- A new generation of modular mounting using the latest engineered materials
- Cost-effective solution for both new and existing installations
- Modern, attractive design suited to today's POS devices
- Industry-exclusive cable management to hide and protect cables
- Full range of device installation heights on all four sides
- Tetherless lock options and easy adjustments
- Suited to front of store and back of store applications
- Folding extension arms available for monitor, printer and payment

MM-1000

IDEAL FOR BOTH NEW & EXISTING INSTALLATIONS

EXISTING INSTALLATIONS

- Easily upgrade existing pole-based POS systems & workstations
- No need to drill new holes into countertop if replacing current TechTower
- Choose from a range of mounts for VESA Displays, Payment Terminals, Printers and Scanners

NEW INSTALLATIONS

- Fully customizable modular mounting solution
- 16", 24" or custom pole lengths available
- Innovative, industry-first cable management to hide and protect cables
- Choose from a range of mounts for VESA Displays, Payment Terminals, Printers and Scanners

MM-1000 SP LINE

- Ideal for those with simple configurations and for those who wish to route cables through the center of their pole
- Available in single or dual monitor mounting configurations
- Easily customizable - choose from payment terminal, printer and scanner mounting options
- Expertly designed using MM-1000 Collar Mount technology
- Offers industry-leading monitor tilt and rotation ranges
- Supports VESA 75/100mm compatible monitors weighing up to 6.8kg (15lbs)

MM-1000

PAYMENT TERMINAL STANDS

- Havis has set the gold standard in payment terminal stand security with millions in use worldwide
- Portfolio includes metal stands, composite stands, charging stands and customized stands for all major device manufacturers
- Stands allow for simple one-handed card use and prevent damage to cards while meeting ADA requirements

Composite FlexiPole Stands

Mobile Charging Stands

Rugged Metal Stands

PAYMENT TERMINAL STANDS

FLEXIPOLE RANGE

- Ideal for a range of Retail & Hospitality environments
- Tilt and Swivel for optimum user experience
- Durable composite material
- Range of mounting options - counter, wall mount and drive-thru handle
- Additional security options - locks and tethers

PAYMENT TERMINAL STANDS

SECURITY OPTIONS

- Comply with PCI-PTS mandates and ensure your device is secured to the stand and/or countertop
- Prevent thieves from gaining quick access to exposed cables and ports for data theft
- Multiple options to prevent use of data skimming overlays and block access to device data ports
- Additional options: in-built locks, tethers, customized tamper-resistant hardware and locks

FlexiPole Locking

Metal Anti-Skimmming & Locking

FlexiPole Tether

PAYMENT TERMINAL STANDS

FLEXIPOLE TAB
